## Re-globalization: Practices from the Art Market

### AIMS & SCOPE

This special edition comprises a collection of papers presented at the 2023 International Symposium of Global Art Market Research, titled "Re-globalization: Practices from the Art Market". The symposium brought together scholars from across the globe to share their latest research and practices on various topics, such as the methodology of art market and re-globalization research, geographical study of the art market, interaction between central markets and emerging markets, history and strategies of emerging art markets, art market and intercultural dialogue, and art market and cultural equality.
